Emergency Solutions Grant – Coronavirus (ESG-CV) is an emergency response program that was developed to supplement the annual Emergency Solutions Grant as a response to the coronavirus pandemic through The Coronavirus Aid, Relief, and Economic Security Act, also known as the CARES Act. This economic stimulus bill was passed by the 116th U.S. Congress and signed into law by President Donald Trump on March 27, 2020.

After two years of these emergency economic funds, the State of Florida has received a third allocation of program assistance because of reallocated dollars unspent by other states.

The primary goal of ESG-CV funding is to prevent, prepare for, and respond to COVID-19. As such, individuals and families most at-risk of exposure and harm from the virus should be prioritized for assistance. Research from the Centers of Disease Control identifies that the following subpopulations are at higher risk for severe COVID-19 include those over the age of 65, those with an underlying medical condition, and some racial and ethnic minority groups who face multiple barriers to accessing healthcare due to lack of insurance, transportation, childcare, or ability to take time off from work.

As such, project applicant under this award must demonstrate the ability to address COVID-19 and the subpopulations it impacts within their program proposal.
